

Safety Precautions

- ◆ Please read this manual carefully before using the product.
- ◆ Do not expose the product to fire, sunshine or other heat sources, as such exposure may result in burning, explosion, and/or generation of toxic gas.
- ◆ Do not make the USB port short circuit.
- ◆ Do not store or transport the product with metal objects.
- ◆ Do not disassemble or modify the product.
- ◆ Do not bring the product into contact with water or any other liquid. If liquid enters the product, immediately unplug the product from any connected power sources or devices.
- ◆ Do not use the power bank if electrolytic liquid leakage, strange odor, overheating, color change or any other peculiar occurrence is detected.
- ◆ Clean only with dry cloth, avoid cleaning the power bank with rough or chemical objects;
- ◆ If your power bank will not be used for an extended period of time, please take the following steps once three months to ensure proper function:

- 1) Charge the power bank;
- 2) Discharge the power bank by using it to supply power to a mobile device;
- 3) Recharge the power bank for 1.5hrs;
- 4) Store the power bank in a cool, dry place to avoid short-circuit and damaging the product.

- ◆ Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- ◆ Only use attachments/accessories specified by the manufacturer.
- ◆ Dispose the power bank properly. Do not dispose it in trash receptacles and do not attempt to incinerate it.

Caution: for most smartphones with micro USB input, as well as iPhones, Blackberry, Android & iPods.

Can not charge iPads.

Specifications:

- Product Name: Power Bank Energy Holder
- Dimension: D23.70*107.40mm
- Battery capacity: 2200mAh
- Battery type: 18650 Lithium-ion rechargeable battery
- Input: 5V/500MA, micro USB
- Output: 5V/500MA, USB2.0
- Power of LED: 1W
- Product Model: YJ1021
- Weight: 73.88g
- Colors: gold; silver
- Standby Time: Above 400 hours
- Lighting Last: above 9 hours continuously

Operate Guidance:

- 1) Charge the Power Bank itself: use the supplied universal charging cord; plug the PC USB end of the cord into PC or such other devices with USB output power; plug the micro USB adapter of cord into the micro USB input of Power Bank. The LED on micro USB adapter of the charging cord displays red when Power Bank is being charged; the LED changes into blue when Power Bank full charged. It needs about five hours to charge Power Bank fully.

- 2) Charge mobile phones by Power Bank: use the supplied universal charging cord; plug the PC USB end of cord into the PC USB output of the Power Bank; insert the micro USB adapter of cord into the micro USB input of mobile phones.

- 3) Press the "ON/OFF" button lightly to open the Power Bank, and the LED on the plastic end of the Power Bank displays blue. Press the "ON/OFF" button lightly again to turn off the Power Bank, and the blue LED will be off.

When Power Bank charges mobile phones, the blue LED on Power Bank flashes slowly. When the output port of Power Bank is disconnected more than 20seconds, the Power Bank will power off automatically.

POWER BANK ENERGY HOLDER

4) Lamp works as flashlight: press the "ON/OFF" button 2 seconds, lamp lights on. And press the "ON/OFF" button 2 seconds again to power off flashlight.

5) Display features of LED charging indicator on micro USB adapter:

- Display according to the current flowing through.
- The general mobile phones' charging current is 500mA to 1A. When fully charged, the current get smaller and smaller.
- When the current is below 160mA, the LED displays blue, showing fully charged.
- Please note: when disconnected, the LED shows blue too, because the current is zero.

- The micro USB adapter is unable to detect whether the phone is plugged in, different from the function of iPhone/iPod adapter.
- When the current is higher than 160mA, the LED displays red, showing charging.

Function Features:

- Powers up your smartphones, with strong compatibility universal charging cord make it easy charging for most models of smartphones with micro USB input, such as Blackberry, Motorola, Samsung, Nokia, HTC, as well as iPhones, iPods etc.
- Lighting.

Product Material:

Flashlight Lamp: Aluminum plate & LED lamp & LED Light Cup
 Main Cylindrical body: Aluminum alloy
 Plastic Plug: ABS & PC & fire proof
 Universal Charging Cord: PPE, completely same material as iPhone original cord

Packing Components:

1 Power Bank Energy Holder, 1 Universal Charging Cord (PC USB---micro USB adapter & iPhone/iPod adapter), 1 Converter (Output-5V/500mA)
